

CITIZENS ORGANIZE SOCIETY TO HELP DISABLED SOLDIERS

Committee Already Incorporated With Nationally Prominent Persons as Members.

A Citizens' Committee of America, sponsored by a widely distributed group of prominent persons, has just been incorporated and has already begun "to organize every citizen of the United States into a concerted effort to provide properly for the disabled soldiers."

Public announcement of the organization of the committee was made today from its national headquarters in the Park Row Building by the Secretary, A. Fitz Roy Anderson:

"The truth must be told," said the announcement. "Thousands of our disabled men cannot be properly hospitalized because hospitals have not been built; thousands will not enter the hospitals afforded because of the class of the institutions placed at their disposal. Charitable and makeshift places harbor those who once were our heroes."

"From the names of the people already identified with this movement," said the announcement, "may be judged the manner in which it will be handled."

At a meeting of the incorporators, the following officers were elected: De Lancy Kountze, President; Francis L. Robbins Jr., First Vice President and Treasurer; Bishop Herbert Shipman, Second Vice President; Selden E. Marvin, Third Vice President, and A. Fitz Roy Anderson, Secretary.

The Board of Directors, in addition to the above names, includes: Mrs. Paul D. Cravath, William F. Deegan, Ralph M. Easley, Mrs. Harry Harkness Flagler, Mrs. G. Franklyn Lawrence, Mrs. James Russell Parsons, William Barclay Parsons, Dr. Thomas W. Salmon, Cornelius W. Wickham and Arthur Woods.

The New York Committee includes Dr. John H. Finley, P. A. S. Franklin, Bishop Manning, Hugh Frayne, Mrs. Hamilton R. Fairfax, Harry Harkness Flagler, Michael Friedman.

Drunk When Wedded, Says Woman Who Has Marriage Annulled

Mrs. Selina L. McCanna Wins Decree When She Testifies Husband Deceived Her by Saying He Didn't Drink.

It became known today that Supreme Court Justice Morschauser has approved the findings of John J. Mylod as referee and has granted a decree annulling the marriage of Selina L. McCanna and John E. McCanna on the ground of fraud and misrepresentation.

According to testimony filed in the Supreme Court at White Plains, the couple were married Feb. 8, 1922, at Port Chester. The plaintiff, who gave her address as No. 201 West 54th Street, Manhattan, set forth that "at the time of the marriage both plaintiff and defendant were suffering from the effects of liquor and were incapable of comprehending the significance and nature of a marriage contract because of the temporary deprivation to give intelligent consent thereto."

Mrs. McCanna testified the defendant falsely told her he did not drink. She further swore they went out on a party before the marriage, drank all night and the next day and did not sleep. She said they drank cocktails, highballs and other mixtures which deprived her of her mentality and she did not know she was getting married. She agreed to return to McCanna about \$1,000 he had spent on her previous to the marriage.

AUTO KILLS MAN, LEAVES HIM IN ROAD

Body Is Found Abandoned at 2 A. M. To-Day.

The body of William Mulcahey, forty, of No. 72 Main Street, Yonkers, was found at 2 A. M. today at 260th Street and Broadway, not far from the Yonkers line.

An ambulance surgeon from Fordham Hospital said it was impossible before an autopsy to determine the cause of death but that Mulcahey appeared to have been hit by an automobile.

City police and State military police learned that Mulcahey came to New York last night to visit relatives and was returning home. He was employed by the Otis Elevator Company in Yonkers.

BRITISH FLYERS MENACED BY SHARKS

Shunned by Native Craft. Drifted Fifty Hours.

LONDON, Aug. 28. Capt. Norman MacMillan has cabled from Chittagong, British India, a vivid account of the experiences of himself and Lieut. Mallins after their airplane had fallen into the sea in their attempt to continue the projected flight around the world started by Major W. T. Blake, and now definitely abandoned.

The airmen were forced down by engine trouble, and suffered so much from exposure that they were sent to a hospital when rescued. For fifty hours they drifted about in the shark-infested waters, and their despair became complete when the crew of a native boat passed them in the evident belief that they were evil spirits.

The naval launch which finally rescued them was on the point of passing also, thinking the airmen were native fishermen. "Good thing I had another look at you," said the commander of the launch when they were safely aboard.

DIES IN SYNAGOGUE AFTER HIS SERVICE

Assistant Rabbi Found in Room Victim of Heart Disease.

In the synagogue at No. 133 Stanton Street, in which he had been shammas for fifteen years, Joseph Werker, seventy-eight, died yesterday. He was found dead in the rear of the building. He had been sexton and assistant rabbi. Werker's son, Isadore, of No. 2948 Washington Avenue, Bronx, was repeatedly urged him to come to his home to live but the father preferred the synagogue.

He participated in the service yesterday morning and was seen by one of the congregation in the afternoon. Ten minutes later, when the same member came back, he found Werker dead on his bed. Dr. Mendelsohn of Gouverneur Hospital said Werker died of heart disease.

Women Drier than Men, Poll Shows But 60% Demand Modification

Vote From Metropolitan Districts of East, Compiled by Literary Digest, Was Wet, but Country Women Favor Prohibition.

The special Prohibition poll taken by the Literary Digest among 2,200,000 women from the voters' lists of the United States is growing drier as the returns continue to come in. The Digest says that "after an extremely wet start in the metropolitan districts of the East, the women of the country by and large seem better friends of Prohibition than are the men folks."

Even as that, 60 per cent. of the women are now in favor of modification or repeal of the Eighteenth Amendment and 40 per cent. for enforcement, according to the poll. The first results showed 45 per cent. for modification or repeal, which was wetter than the men.

"But," says the Digest, "if the women are drier, the factory workers continue to show an overwhelming predominance of damp opinion. The workers in five representative factories, polled with every care, are in a ratio of approximately 11 to 1 against bone-dryness."

The grand total to date shows 302,315 for enforcement, 322,328 for modification and 162,632 for complete repeal.
